

Dear Senators,

Please support SB352 to help the Tucker Maxon School with tuition assistance and capital budget for a new heating system. I attended Tucker Maxon in 1987-1989 and it changed my life. As a hard-of-hearing student, they helped me integrate into society and to communicate. Today, I live a happy life with a successful career. This nonprofit makes miracles like this happen every day. This is a one-time financial request. The heating system is at a breaking point. Band-Aid repairs this winter alone have cost over \$12,000 but the problems are never over when your system is 65-years old. The old system also wastes fuel and money. Please support SB 352.

Thank you,  
David Lenz
