Dear Chair Taylor,

Oregon businesses are still scrambling to comply with the state's paid sick leave law, minimum wage increases, predictive scheduling law, overtime mandate, and the new and complex equal pay law. Now is NOT the time to pass aggressive family and medical leave mandates that would further burden local businesses.

We own 4 small pubs and a commercial floor cleaning company. The extra cost of doing business would be impactful and force a possible down size / employee reduction.

Thank you,
