Here is my letter to whom ever it concerns:

Do NOT use WiFi! I lost my career (Teaching for 19 years) to electromagnetic illness and my whole life has changed. Kids have no choice, no say, and no one to defend them. It has to start somewhere. It is an easy fix... wire the damn electronics! Don't be so foolish to put your convenience, trying to show off, ahead of the cost of long term, permanent, harm to the health of our children! Thank you.

Sincerely,
Holly Padilla
Granada Hills, CA.
Warmly,
Holly Padilla
