

Honorable Senators (at least I hope so):

I am Dale Casey of Jackson County, Oregon. I was born and raised in this county as was my mother and a grandmother. This is only to let you know I am not a newcomer to the state. I even have one ancestor who was one of the members of the contingent that went to Washington D. C. touting for statehood.

I certainly hope that you will not be guileful nor deceitful when considering any of the bills wanting to control firearm ownership or possession. Should that be the case, let it be known there will be an eventual time of regret on your part for violating the U.S. Constitution and the 2nd. Amendment nor should you consider violating the 27th. Amendment of the State of Oregon Constitution. In the case of the Oregon Constitution there is always the 1st. Amendment you should be mindful of.

Any bill or law should be open and able to be plainly interpreted by the citizens of the state. The God given rights of the individual should not be violated. There should never be exceptions made for a special class of citizens either. I for one have had nearly enough of all the shenanigans and maneuverings of attorneys, judges, lawmakers, and governors. Playing stupid word games is a foolish thing to be doing as well. We citizens are the first line of defense against those who would violate our state or country. Waiting for help from the state could prove very fatal to us.

I certainly hope you will be mindful of the rights of all citizens to determine how they will be governed and by whom.
