

To Whom It May Concern,

I would like to express my concern over SM 978 which is about to be taken up by the Oregon Legislature. I would like to be counted as an Oregonian that is AGAINST this slow erosion of my gun rights and other Oregonians. If you want to fight violence, you need to start where violence starts and that is with video games that so many youth are and become addicted to! Think about it, historically, youth carried guns in their gunracks on the back window of a truck, AT SCHOOL, and 35 years ago there were NO school shootings. Ask yourself what has changed? I know.

Respectfully,

Sheila McKelvie
