

I am a retired law enforcement officer with 25 years experience and I wish to strongly object to the never ending attack on my rights involving firearm ownership, storage, use, etc, etc, etc by the Democratic Party. Please explain to me how disarming me and hundreds of thousands of other law abiding citizens will make anyone safer (except the criminals that will have no fear of being shot by their victims protecting themselves).

I'm glad I was able to live the majority of my life in a pre-socialist, "sanctuary" free country that I was a proud member of, but I fear greatly for the future of my children as our Republic disintegrates.
