Subject: SB 929

Senator Dembrow and other committee members

I misspoke on SB 929, which in fact involves a new program at the state level. Although it is possible that Irvington commercial structures may have used the Federal Historic Rehab Tax Credit program, numerous Irvington properties have benefited from the Special Assessment program, which is being renewed in SB 48 for three years.

I support the passage of SB 48, as well as SB 927 and SB 929, as previously indicated, all of which will further historic preservation in Oregon.

Many thanks for your consideration.
