

In Opposition of SB978

As I read the last minute hearing notification on SB978 . It comes to mind, how Rights are so easily stolen. When a Legislature acts as Dictators under One Party Rule. We Americans Have a Beautiful Government template, Which acknowledges the individual Rights We all have as Humans. Each Right is written in stone of our Constitution. One line was written to make absolutely sure the future Governing people, would have no mistake on the intent of of the writers of our Constitution. That crystal clear line: Shall Not be Infringed. Is a timeless mandate. Placed on Future Legislators at the time it was written. This mandate has no expiration date. Oregon did not receive special compensation to ignore Shall Not be Infringed. Oregon Legislators are not above these words. Oregon is not above the law. Richard W Baltz 16219 Pinedrop Lapine Oregon 97739.
