

To whom it may regard,

I am opposed to SB 770.

This bill eliminates private insurance, options/preferential choices and competitive rates. It also allows for more then the ones paying in to the paying out fund to get the services from the service funds available. I don't have a government telling me how to do auto insurance and don't need one for health insurance either.

I urge a no vote, stay out of my healthcare and my wallet. Please do not waste tax payer money on court challenges.

Respectfully,

Kendal Pelton
