

Dear committee,

Please I strongly oppose SB 770 allowing OHA to take over private care.

Governments having control over your medical decisions is universally regarded as a bad thing. This is about the government taking away your freedom to make your own medical decisions.

Please oppose SB 770! This is one of the clearest violations of our liberties to date. It will show that our system is clearly and finally irrevocably broken.

Respectfully

Penny Steenslid

Scappoose Oregon
