Subject: Testimony No on sb979 & No on sb978
Date: Sunday, March 31, 2019 11:55:39 AM

SB 979. Vote no. Data already reported. Citizens should recommend legislative changes.

SB 978. Vote no. This bill is a long winded nightmare. It could make me responsible, in my own home, for liability due to a crook killing someone with a gun stolen from me in my home. The bill keeps me from instant access to any firearms I might have. If a crook is breaking in to my home on a dark night and my home has multiple stories I might want available weapons in different locations. They would not all be under my control. I would be in violation of the law. And, I would not be using locks on my weapons. Please vote No. Do not make me the criminal.
