

“A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed.”

I stand for the original amendments our for fathers of the untied states of America originally drafted. I believe altering this in any way by a state, chips away at the very fabric of what this nations was built upon.

I am a nurse and believe in saving lives.

I was also in a mass shooting at the Clackmas town center 12/11/12.

I still do not believe anti gun laws are going to help this situation. Unfortunately criminals will still be able to purchase guns and I will not give up my rights to own a gun for my own defenses.

Which I believe is why our for fathers initiated this law.

I think the real solution lies in better psychiatric screening.

Thank you for hearing my thoughts in this matter, Nina Cataldo
