

The right to bear arms is a part of the oUS constitution foundation. We must leave it completely intact for the time our government goes too far such as endorsing socialism. Our forefathers had seen and lived during a time when socialism was controlling their lives. Murder, rape and plunder of families are what socialism will bring to our great country if we don't keep our constitutional rights in tact. Vote no on petty changes in gun control. Vote for a strong America not to be an eccentric state.
