

Chair Prozanski, Vice-chair Thatcher, and Judiciary Committee members,

I do not agree with the SB 978-1 bill. Currently, I am of age to purchase and handle a rifle. I have gone through hunter's safety and my parents have taught me to properly handle the firearms. I see nothing in this bill that would support the education and training that most hunting families already partake in. I urge a **NO** vote on this bill.

Sincerely,
