

To all concerned:

This bill is an unabashed attempt to bypass the 2nd amendment to our Constitution. I encourage a no vote on this ridiculous piece of legislation. The state of Illinois and the city of Chicago in particular have the strictest gun laws in the country. They require a firearms owner Identification card to purchase anything related to firearms. Concealed carry permits are not issued. Gun stores are non-existent in the city and yet it is the shooting capital of the United States. That alone should tell the intellectual yet idiot crowd that gun control and laws do not stop gun violence. If it did, the City of Chicago should look like "Mayberry not Thunderdome". For anyone who is into shooting sports, it is a regular occurrence to shoot 100 to 200 rounds a session at the local shooting range. Many people will go out a couple of times a month. I am going to cut this short, the intellectuals that came up with this piece of ridiculousness obviously never served in the military, or has any vague idea of firearms or sports associated with such. They do not believe in the founding fathers, the constitution, or the pursuit of happiness. Self defense is not understood. If this joke or any others pass, I want all security in the Capital disarmed, bodyguards also, no personal protection in the home unless it can only hold 5 or less rounds of ammunition, is under lock and key and no more than 60 rounds of ammo in the home. What? You don't like that idea? We don't either. Vote NO!!!!!!!!!!

Thank You
James Parker
