

Oregon does not need ANY new firearms laws, especially this type of draconian garbage that is being put forth by the Portland super majority. This will do nothing to curb crime, but will make criminals out of most of Oregon's citizens who will continue to (correctly) exercise their inalienable right to self protection, and will not follow new laws.

California's illegal magazine ban has just been overturned, and so will any of the new legislation being put forth by our uneducated and misguided do-gooders in the legislature. Stop the insanity now, and kill the rest of these ridiculous bills. These will do nothing but harm normal every day Oregonians.
