

Please vote NO on this Bill and all its Amendments

Kay Bridges
Washington County Resident

I could write several pages on all the reasons why and respond to each of the items you have added here as Amendments.

Ultimately you are only handcuffing law abiding citizens.

This bill if passed would be ignored by the criminal elements.

The restrictions and regulations you would impose on the private citizen will make them less safe and unable to defend themselves. Is that really what you want? If you think that's a good IDEA then get the security out of the Hearing Room, get the security out of the Capitol and expose yourselves to the same risks you are asking each one of us to take.

Please vote NO and again NO!
