

Dear Chair Prozanski, Vice-Chair Thatcher and Members,

As a law abiding resident of Oregon, I see many things wrong with SB 978 as amended. None of the items in the bill will stop a 'bad guy with a gun". In fact by passage of this bill, I and my family will no longer feel safe living in Oregon and will be exploring other states to move to. The disregard for the US Constitution and the Oregon Constitution shown by the people who cobbled one after another ridiculous infringements to the Second Amendment in this bill is astounding to me.

Unfortunately, based on previous failure of enough elected officials truly working for the people who elected them and upholding their sworn oath to the Constitutions, I see this email as a probable waste of my time.

Please prove me wrong by not advancing this or any other bill infringing on the Second Amendment out of any committee one might show up in.

Regards,  
Ralph Hughes
