

Dear Senators,

This is an email in opposition to Senate Bill 978. You cannot legislate criminals by making law abiding Citizen's criminals.

I am a small business owner and my schedule book was full for today, were it not I would have been here in person.

The Constitution is clear, the right of the people to keep and bear arms shall not be infringed.

As a small statured woman my right to keep and bear arms gives me equal power against a criminal male.

In Oregon most death by fire arms are suicides. In every case of mass shootings the area is a gun free zone. Stop making us fish in a barrel.
