This is a partisan message, yet nothing I'm gonna say isn't true. The Democrats in Oregon's state legislature want the populous of Oregon malleable and vulnerable, disarming us is the first step toward total tyranny. The left knows a subject is easier to control than a sovereign citizen. And control is what the Democrats have proven to value, as seen through their constant need to tax, overregulate and dictate the behaviors of Oregonians. Freedom was once a cornerstone of the Democratic party, once the party of John F. Kennedy, who said we need a populous "ready to take up arms" in order to preserve freedoms for future generations. Now the Democrats have become the party of abortion up to and after birth, substantial tax increases and government intrusion.

This Democratic supermajority feels it can do whatever it wants. I feel that the populous of Oregon, both Democrats and Republicans, are fed up with unnecessary government intrusion into our lives. I have personally spoke to Democrats who are fed up with the anti-2nd amendment bills in the legislature. Democrats in power want a vulnerable and malleable populous so they can easily implement their socialist agenda. Mao, Hitler, Stalin, Castro, Pol Pot, Gaddafi and Kim Jong Il all took the guns and it lead to the implementation of socialism and communism but most importantly mass death. Gun control has a track record of death and mass genocide throughout the 20th

century. Here are some examples: In 1911 Turkey established gun control. From 1915-1917, 1.5 million Christian Armenians were rounded up and exterminated by the Young Turks. In 1929 the Soviet Union took the guns away and from 1929 to 1953 20 MILLION political dissidents were murdered by their own government. In 1935 China established gun control. From 1948-1952, 20 million political dissidents were rounded up and killed. In 1938 Germany established gun control. From 1939-1945, 13 million Jews and others were rounded up and murdered. In 1956 Cambodia established gun control. 1 million educated people would eventually be rounded up and exterminated. You see the point?

Democrat politicians sitting here today don't have your best interests at heart. This is why the Democrats ignore the fact that 97.8 percent of mass shootings since 1950 have happened in gun free zones. The safety of the public is put on the backburner as the Democrats look to implement their Agenda 21 inspired, climate alarmist, and socialist agenda. Kate Brown, the leader of Oregon's Democratic party took a whopping 25 thousand dollars from known nazi-collaborator George Soros. George Soros' foundation the Open Society Foundation, has advocated strict gun control. In 2000, Open Society published a widely circulated report entitled, "Gun Control in the United States." The publication called for a host of new federal and state gun restrictions. At the federal level, the report recommended the criminalization of private transfers, a ban on affordable

handguns, and maintained that many semi-automatic firearms be banned from private purchase. The Democrats are following the agenda of Soros to a tee. Soros is one of many global elites who wants us disarmed. Oregon's Democratic party is the party of the man indicted for raping a 15 year old boy Terry Bean and George Soros. Both of which advocate strict "gun control", which translates to a vulnerable and malleable population. Disarming us makes it easier to control us and allows domestic terror threats to arise.

Having a population disarmed coincides with the Strong Cities agenda of the UN. Which calls on a global police force to thwart "extremism" in the US. The strong cities network would permit a tyrant to create a global order through a global UN police force. It all starts with disarming us. Currently Americans own 46% of the world's billion guns, this greatly reduces the frequency of terror attacks, prevents foreign invasion and permits the average citizen to protect themselves and their family. The Dems want the government to have complete power over the average citizen. If the average citizen is not armed they are malleable and vulnerable. Don't you want your children to have the same freedoms that you were blessed with? Or do you want Orwell's *1984* or Aldous Huxley's *Brave New World* to become a reality? Tyranny comes fast, we have to stand up for freedom before it's too late.
