BACKGROUND:

With the passage of House Bill 3650 (2011) and Senate Bill 1580 (2012), the Legislative Assembly established the Oregon Integrated and Coordinated Health Care Delivery System in which newly established coordinated care organizations (CCOs) became responsible for coordinating the physical, behavioral, and oral health care for individuals enrolled in the state's Medicaid program, the Oregon Health Plan (OHP). Fifteen regional CCOs currently coordinate the provision of services for over 850,000 Oregonians enrolled in OHP.

Senate Bill 1030 requires OHA to make publicly available specified financial information about the administration of the Oregon Integrated and Coordinated Health Care Delivery System.
