

It sounds to me that the Amendments to Senate Bill 978 will create a whole new group of felons in this state. It will be extremely detrimental to our lower income residents. Not everyone can afford a Liberty brand gun safe and have you checked out the prices at Cabela's for a decent small gun vault. This is a slap in the face of our founding fathers and the writers of Oregon's Constitution as it squarely goes against our Second Amendment rights. I might not be the brightest person in this argument but at least I can figure out that punishing law abiding citizens for the actions of the criminally inclined is not the way to run a state. We need equal representation in our government not just a one sided group of people who most don't even know the basics of gun safety. Thank you for reading this if you bother to do so.

John Bullard.
