

RE: I support SB 870

I am an Oregon resident and law professor.

With winner take all on a state by state basis the electoral college is a random way to elect a President.

Change the electoral college so the residents of Oregon have a say in who is elected President. Now the citizens of Oregon are allowing the residents of swing states like Florida to choose the President for all of us.

I support the concept of one person, one vote.

Please support SB870 by voting YES.
