Subject: Support for SB 931

Dear Chair Dembrow and Members of the Committee,

I am writing to voice my support for SB 931.

It is time that Oregonians are provided with adequate protection via timely notification before any impending aerial or ground herbicide spray is conducted. With FERNS, notification can be provided within 5 days of the operation. This will ensure that people and pets, plants, bees and livestock can be protected from unnecessary exposures. Water systems can be protected by those who share supply with industrial timber lands. Organic farmers can protect their workers. It is time that consideration is shown for all who are potentially impacted.

Thank you for considering my testimony in this issue.

Sincerely,

Kim Davis
