

My name is Eric Eaton and I would like to voice my opposition to SB978 and all other bills being considered which reduce the ability for law abiding citizens to own and possess firearms at home and in public. My belief is that these laws will do nothing to hinder crime and in fact will only serve to incriminate otherwise lawful citizens. Please consider the findings of John Lott, who found that concealed weapon permit holders are in fact less likely to commit crimes than police officers.

Respectfully,

Eric Eaton
