

I am a legal immigrant from Cambodia and was told that America is the land of the free. A place that is safe from tyranny and a country of opportunity. That is true but since I have been here the Democratic Party has been turning more extreme and more like the government of my home country. I cannot support you, the Democrat representatives and senators when I can finally vote if you keep passing laws restricting freedom like SB 978 and making it more expensive to live here with your other laws. Please stop the partisan group think and do what is right for your people even if it is difficult. In Cambodia we live in tyranny. We have no right to protest, no freedom of speech, and no gun rights. The government is one sided like Oregon is now(supermajority). Criminals still have weapons even though we were disarmed before I was born. Please drop SB 978 stop punishing law abiding citizens and if you pass laws then punish the criminals who hurt others.

Thank You
