

SB 978 would turn children into felons. Please stop supporting non-sense gun laws.

Why the urgency to pass more gun laws?

I'm finding it difficult to understand why politicians see a need to pass new gun laws in Oregon. The Oregonian recently had a huge article showing facts and evidence that Oregon has some of the lowest gun crime rates in the country.

Please stop supporting gun laws that favor criminals and create felons out of law abiding citizens. I should not be in fear of waking up some morning to find out that because of something I legally purchased has now made me a felon because of a law that you supported.

Thank You
Alexander Reed

Isn't my house a locked container? So if I don't have my gun locked inside my locked house and a criminal breaks into my locked house and steals the gun.....I'm a felon???

Every mass shooting over last 20 years has one thing in common... and it's not guns
https://www.naturalnews.com/039752_mass_shootings_psychiatric_drugs_antidepressants.html#

Something like over 93% of all mass shootings occur in "Gun Free Zones." All of the schools that experienced mass casualty active shooter incidents were "Gun Free Zones."

One might conclude that "Gun Free Zones" are very attractive targets for psycho killers, who ignore not only the "Gun Free Zone" designation, but also ignore the laws prohibiting murder.

Arming faculty and staff at schools and posting signs that armed personnel are present and will use deadly force to protect students would seem more effective than posting "Gun Free Zone signs. I

can only conclude that benighted Oregon legislators are acting out of ignorance and a lack of common sense, or that none of them have children attending "Gun Free Zone" schools.
