

HR 50 is yet another attack on the Constitutional rights of the good, law abiding, tax paying citizens of Oregon. Why don't you take some time, invite experts to advise you on how to keep our schools and public areas safe. It almost appears that you are lazy and don't want to listen to sound advice to achieve security without infringing on the American citizens rights...please stop this ill advised legislation and others like it.

Thank you,  
Eric Henderson
