

As a disabled Veteran and Son of a four war Veteran (WWII, Korea, Cold War & Vietnam) whom have committed our lives to the service of America.

We are appalled at the very underhanded lengths Democrats and their lackies in the media have gone to keep SB978 and all of its hidden agenda (amendments) from the law abiding citizenry of Oregon, in order to further their agenda of debasing the 2nd Amendment.

As you already know, A California Federal Judge has already begun to dismantle California's unconstitutional gun laws ..

Know this .. if you continue and go ahead with a yes vote ... It to will be overturned, in time because it to is unconstitutional.

Also know if a yes vote goes forward on SD978, the ballot boxes in 2020 will vote the vast majority of you out of office as well.

There isn't anyone who has read the mockery of B...S... in "SB978" that doesn't see that other than changing the legal age fro 16 to 21, which is absurd ... nothing written in SB978, will insure the safety of Oregon citizenry from someone whom wishes to do harm to another ... NOTHING ... Why, because if a person is willing enough to want to hurt, cripple or kill another individual ... They Will by any means available .. a car, a knife, a bat, a steel pipe, TV antenna, ax, machete ... A million and one things are available .. even if it's just your bare hands.

So if you really wish to hang on to the offices in the legislature you now hold .. VOTE NO ON .. SB978

Sincerely yours:

RL Steele
