

As an Oregonian I wish to voice my opposition to ALL the amendments of SB978 dealing with firearms. As a 66 year old woman who has been in a position to use a firearm for self defense, I do not want any laws interfering with my ability to do that.

I sought out training to safely use firearms. I practice. I store them safely. No regulation of capacity, caliber, or accessories replaces training.

As a side note-1 of the people who threatened me was mentally ill. One was highly intoxicated. Could you as legislators stop wasting our time on gun control regulations and start working on meaningful legislation to help mentally ill?

Respectfully,
Shirley Champion
