

I am was not able to travel to the State House today as we have responsibilities here that have to be looked after.

My vote is NO!

I may be just one of the people but I am one of many who believe this proposal is a bad one. We the people have a right to defend ourselves! By the time I get my gun unlocked and loaded in the event of a home invasion I will either be dead or wish I was if this proposal passes. I have the right to keep a loaded gun unlocked in MY home.

The government is seriously over reaching its boundaries. We do not live in Russia, China, Korea, Germany or any other place that the government runs and steps on its own people.

You, the people who were voted in by us need to listen to us. I have lived in Oregon for 47 years. I was born here, raised here. I have always been proud of Oregon but not anymore. The powers that be are corrupt and they believe that anyone who doesn't think like them are ignorant, stupid and useless. You are mistaken.

Those who are suppose to be watching over Oregon are bordering on treason. We the people are being sold out to the highest bidder and I am ashamed of what our state has become and I fear there is worse ahead.

You are destroying Oregon!

Sincerely,

Jeana Hall
