

If SB978 moves forward and as expected less than a third of legal gun owners comply, around 1 million law abiding citizens will become felons through legislative tyranny, and no criminal action on the citizens part. With Oregon's population at around 4.4 million, that means Democrats with their idiotic rush to control others lives, have turned 1/4 of Oregon's citizens into felons. And then they expect us to obey the rest of their laws?

How are you going to enforce the unenforceable, unconstitutional laws?

Do you have the police officers and police unions consent, to put officers lives In jeopardy trying to enforce unconstitutional laws? I seriously doubt it.

So what part of the Constitution allows you to break into a law abiding citizens home And seize legally owned guns? I would say you have broken both the Fourth Amendment and the Fifth Amendment and there will be repercussions for any law maker who engages in unconstitutional actions against the people.

It was made clear to all of you on the Senate Judiciary committee, during testimony people who own guns will not comply. I ask you to step away from SB978-1 and vote no, before this ratchets up to the next step, massive non compliance. Pursuing this path will not turn out well for anybody in Oregon.
