No amendment.

**BACKGROUND:**

In 2016, Washington state prohibited state and local elections officials from including their name, in an official capacity as the elections official, in the voters' pamphlet or on the security envelope, return envelope or any voting instructions or materials included with the ballot, if the official is a candidate for office during the same year. See, e.g. R.C.W. 29A.32.070. Senate Bill 670 would apply a similar rule to Oregon's state and local election officials.
