**Subject:** SB 978 testimony

Hello, I am writing to let you know my opposition to senate bill 978 in regards to lawful citizens owning unserialized or 80% firearms. We as citizens have a right to bear arms under the second amendment and we enjoy making and finishing our own firearms as a hobby. A law abiding citizen should not be made a felon for what is legal now. And I believe these types of firearms are in common use so under the Heller ruling they should be protected.

Thank you,

Please vote no on sb 978 this bill does not address mental health and takes away resources needed elsewhere in the State instead of making law abiding citizens felons.

Hello, please vote NO on sb 978 as a citizen of this great State I would like to see lawmakers focus on education and homelessness more than restrictive policies for law abiding citizens. I do not believe age limits or restrictions on purchases are a productive path. If we expect our 18 yr old youth to fight our wars then restricting what they can purchase ( firearms) when they are home is a bad message to send.

Thank you,

Hello,

I am writing to oppose this bill as in my opinion it will not impact crime or safety in this state. It will impact the rights of Oregonians to defend themselves while in a crisis we would hope but not expect less than a 36 min response from law enforcement ( New Zealand) to help protect us when we are disarmed. I do not believe that a gun owner should be responsible for the crimes committed when his property is stolen. If my car is stolen am I responsible for what the thief does with it?? No Thank you,
