Hello,

I'm writing in regards to the need for increased funding for our education system. We must invest in our future by providing our youth with the best education possible. Currently the Beaverton School District, along with other districts, is estimated to have a major budget deficit that would mean fewer teachers and larger class sizes. Please consider the detrimental impact on our youth and our future if education is not made a priority and increase funding for education.

Sincerely,

Stephanie Ciftci

Mother, Nurse, and School Volunteer
