

To whom it may concern:

I have taught in the state of Oregon since 2005- first in Hillsboro, now in Beaverton. I have taught Kinder, first, second and third grades, and have always had at least 25 kids or more in my class- and the numbers keep getting higher every year. This makes it nearly impossible to meet the needs of every kid- especially kids who are new to school and who are dealing with trauma and complicated emotions. We need help- we need fully funded schools.

This bill will go a long way in making that happen. PLEASE do the job you were elected to do and fund Oregon's schools!
