

No for bill # 2019

Rebecca Roth
Marion County

While the line was waiting for the hearing, I talked with several educators, who all seemed to believe that this excessive amount of money would solve all their problems - and that the money would find its way to the classrooms of Oregon.

Since the money usually goes all sorts of directions, and pays all kinds of people and programs outside of what most parents want their children to learn, I expect this money will do the same.

But money has to come from somewhere and that would be the taxpayers!

Businesses and entrepreneurs who can't stay in business with all the excessive taxation being passed, will mean fewer jobs (creating more dependants on the state) and will cause larger businesses to move out of state. So, fewer people paying the taxes.

Then you will need more money or have to cut programs, and will destroy many peoples' lives.

We are getting a good look at how Democrats really have not changed since the days of slavery, as taxes, boards, and political enslavement of the people is still what Democrats seem to love to do. Feed to excess the privileged Democrats at the top of the system, and the people whose money you are stealing don't register at all.

One teacher told me that this money would stop students from throwing chairs at her. We all know it won't! We need to be able to pray, and teach about God of the Bible again. (America is a Christian idea and if the Christian ideas aren't taught, then the children have no reason to treat their teachers with respect + love.

The govt doesn't seem to be able to discipline the children IN SCHOOL - so why, as one teacher said, would government social workers in the homes be able to bring kids to good behavior? It is the blind leading the blind.
