**Date:** Tuesday, April 16, 2019 11:10:07 AM

---

Dear Co-Chairs Roblan,

Taxing gross receipts on businesses makes no logical sense. As a self employed person I already pay both sides of the social security tax, Suta. Futa, the Oregon transit tax and I have to pay my own health insurance. This tax will make Oregon the worst state to own a business in. Large employers will move their headquarters and the costs of all services will skyrocket. Our industry already is tough and this may just put us out of business.

Sincerely,

Dana Burk
