NO, NO a thousand times NO! How many times and in how many ways must we tell you NO?

We voted on this matter a couple of years ago and told you people NO by a very wide margin. We meant it then and not just for a couple of years; we meant it forever!

I've lived in Oregon for nearly 30 years and I've noticed that the courts or the legislature eventually overturns everything the People vote on by referendum or initiative. Stop it! You are not our masters and you're infuriating us.

Don't let this bill go forward.
