

SB 740 A STAFF MEASURE SUMMARY

House Committee On Health Care

Prepared By: Oliver Droppers, LPRO Analyst

Meeting Dates: 4/18

WHAT THE MEASURE DOES:

Requires that health benefit plans that provide radiation therapy for the treatment of cancer must provide coverage of proton beam therapy for the treatment of cancer on a basis no less favorable than the coverage of radiation therapy.

ISSUES DISCUSSED:

EFFECT OF AMENDMENT:

No amendment.

BACKGROUND:

Proton therapy is a type of radiation therapy that uses high-energy beams to treat tumors. Proton beams can be delivered with more control than forms of radiation, allowing the safe delivery of higher doses to tumors. The therapy has been used to treat complex tumors, such as those in the prostate, brain, eye, and cancers in children.

Senate Bill 740-A requires health benefit plans that cover radiation therapy for cancer treatment to also cover proton beam therapy.

1st Chamber vote (Senate): Ayes, 30.
