

Dear LPRO Analyst Gezelter,

How many more taxes can Oregonians take? Taxation is not the answer. Oregon needs to cut back on spending and balance the budget. We aren't allowed to just tax the people when we want more money. Please consider the businesses that are trying to supply work to employees while also making a small profit so we can support ourselves. Taxes on gross income is not fair, and it drives good businesses to other states or out of business! As I stated before, how many more taxes can Oregonians take?

Sincerely,

Rod Frahm
