Subject: SUPPORT for HB 3427

Please include these comments in the official record for HB 3427:

We must pass the Student Success Act to honorably *begin* to provide Oregon families with a sense of educational security - that adequate resources for competitive academic excellence, emotional and mental health, and arts exploration will be provided for, and students will be adequately supported by teachers who aren't so overwhelmed by too-large class sizes to attend to every developing voice.

Education is the first step toward a citizen walking their own path to independence and personal success. Not endeavoring to investigate the best ways to provision education is assuring uncertainty in the ways we care for our people, at the start; and, our economy, in the end.

Thank you for your consideration,

Alice Murphy
