

Dear Joint Committee on Student Success,

As currently written, the Student Success Act, HB 3427, will help to provide a quality education with an abrupt dead end. For the vast majority, meaningful employment will require quality education BEYOND High School and, in the absence of the much needed funding for post secondary education, this will not be available.

Please amend HB 3427 to include funding for post secondary education.

Regards,  
Greg Hamann
