Hello,

I am writing to encourage your strong support for the proposal from the Joint Committee For Student Success (HB3427) to fund education adequately!

As a taxpayer, employer, parent and public servant I have seen the disinvestment in K-12 Education over the last several biennia. At Beaverton School District we continue to see costs outpace the increase in funding from the state. Our students and community deserve adequate and affordable education for all.

I urge you to show the leadership we elected you for and solve this problem and fund schools appropriately!

Sincerely,

Gayellyn Jacobson
