---

Dear Representatives,

I strongly support HB 2916 A which expands transitional housing accommodations permitted inside the urban growth boundary. We have a shelter crisis in Lane County. The addition of structures like huts, pods, tepees, yurts, or tents can help with the shortage of shelter options for those who are unhoused. If people who are unhoused are provided with stable, legal transitional shelter, they will be better able to connect with the support services they need.

Sincerely yours,  
Anne Millhollen
