SB 1041 Potential Conflict of Interest:

Colleagues I have a potential conflict of interest on SB 1041. My brothers and I applied for and successfully were awarded the original request for proposal in 1994 in the creation of Dental Care Organizations. I am a member of a number of LLC, professional corporations, and subsidiaries that provide Medicaid services to the Oregon Health Authority through contract. Additionally, I am also a Medicaid provider for special needs clients providing services in a hospital based setting.

A handwritten signature in black ink, appearing to read "Cedric R. Hayden", with a long horizontal flourish extending to the right.

Cedric R. Hayden
