

Hello my name is Chad Kernutt, I am a resident of Albany and I am urging you all to vote NO on SB761. The democrats are always accusing the republicans of voter suppression and trying to restrict votes by making people show ID to verify who they are (every american citizen should have some form of ID) which you would think would be common sense to make sure there is no fraudulent voting but the democrats have falsely conjured up as racism and suppression (they're usual bag of tricks). This SB761 bill however is suppression. This bill requires any person signing a single-signature petition sheet to have personally print it out with the severe consequences of not doing so entailing having all electronic petition sheets denied. This bill puts forth an unrealistic requirement for an electronic signature sheet to be printed by the person who signs it. Seniors as well as a great deal of other folks, myself included, don't always have printers. This will make it harder to gather the required signatures and has the exact effect of preventing free speech. This is another predictable overreach of government. This requirement would be difficult to enforce and unnecessarily makes it harder for citizens to petition out of control government officials reckless bills that should have been left up to the people to vote on in the first place. Again I urge you all to vote NO on SB761. Thank you.
