

Please, do not let this unconstitutional piece of legislation make it to the floor for a vote. Our founders were very intelligent to have the electoral college instituted, so the smaller states like Oregon would have an equal say in who our President would be. I am not willing to secede my vote to a Socialist in NYC, or LA. That is where our president would be chosen. Our vote here in Oregon would just be a formality. I am asking that you stab this awful loss of our freedom in the heart, and let it die in your committee.

Thank you,
