

Dear Senators ~ I am writing to you in regards to SB 761. I am the mother of four children and work full time. It is important to me to participate in the legislation of our state, but living in Central Oregon I am not always able to come to Salem in person. Utilizing electronic petitions to get my voice heard has been a very useful tool. Not all people have printers, and as spread out as some counties in our State are it is difficult to hand off paper copies. These allow for a more timely process and allow you, our legislators to hear from a larger portion of the community.

Please vote NO on SB 761. We should be looking for more voice from our communities, not less.
