

To whom it may concern:

I want to express my strong support for the National Popular Vote bill. It is critical we change the way we elect the President of the United States to be by popular vote so that every vote across the country is equal.

I feel it is unconscionable that someone in Wyoming has four times the vote power as someone who lives in New York. The Electoral College has always been a tool benefiting conservative, white, rural areas since the time of slavery, and our country has fundamentally changed since the Constitution was drafted.

Twice in recent history a president has been elected without winning the popular vote. It is unconscionable that a handful of voters in select states decide the election.

Please vote 'aye' on SB 870.

Thank you,
